

Formed in 1997, Pegasus Knowledge Solutions is a prestigious technology services company based in Schaumburg, Illinois. Our mission is to provide technology services that enable our clients to stay ahead in today's global marketplace. Our strength is end-to-end consulting across the implementation lifecycle, including architecture, re-engineering, deployment and ongoing support. Our prestigious clients span the financial, transportation, manufacturing and distribution, banking, insurance and telecom sectors. We have forged strategic partnerships with leading technology providers in our areas of excellence, enabling us to provide technology solutions based on best-of-breed tools and technologies.

Our Service Offerings include:

- ❑ ERP and Custom Application Development, Support and Legacy Application Migrations and Support
- ❑ Mobile Solution Development and Enablement, Social Media Interfaces
- ❑ Data Management Services including Business Intelligence, Data Warehousing, and Database support
- ❑ ERP and Custom Application testing, QA and Change management

Our services delivery is provided using a Global Delivery Model with a customer-driven blend of onsite and offsite service. Our service delivery is based on proven methodologies to assure repeatability and performance.
